

Allow people to attend an event without registering

If you do not want to collect any information from attendees, set up the event with no registration form and allow people to attend anonymously. To allow attendees to access the event even faster, you can also have them bypass the landing page when they click the event link and join the event immediately.

Without a registration form:

- Information about individual attendees will not be available in registration reports
- Viewing data will not be available in event reports
- You cannot send event reminders and follow-up emails to attendees
- Attendees will appear in reports with a generic placeholder email address, such as `guest#####@webcasts.com`

To hide the registration form:

1. On the left panel, click the **Registration** tab.
2. Under Registration Type, select **Use Anonymous Registration**.

A screenshot of a settings panel titled "Registration Type". Below the title is a light gray horizontal bar. Underneath, there are two options: "Use Anonymous Registration" which is selected with a blue radio button, and "Skip landing page" which is unselected with a white checkbox.

Registration Type

☒ Use Anonymous Registration

☐ Skip landing page

3. Optional. Select **Skip landing page** to have attendees bypass the landing page.
4. Click **Save and Continue**.
