

# Set up an event in another language

Language templates contain many common text elements translated from English to other languages. If you're hosting an event in another language, we can assign a language template to a specific folder in your account. When you create new events in the folder, the template automatically translates the text on the registration page and the audience event window to that language.

**Note:** Only new events created in the language template folder are translated. Events moved into the folder from another folder are not translated.

To have language templates set up for your account, contact Support.

## Translated elements

The following table shows the elements that are translated on the registration page and audience event window.

**Notes:**

- Language templates don't translate the event \_\_TITLE\_\_ or the \_\_DATE\_\_ auto-fields on the registration page. To customize the title and date, enter them in the Landing Page Content section. To learn more, see [Customize the event title and date | Bar layouts](#) or [Customize the event title and date | Open layouts](#).
- Language templates only set the language for the registration page and the audience event window. They don't set the language for the Webcast Admin portal, the Live Studio, or the editing studio.

| Page | Elements translated |
|------|---------------------|
|------|---------------------|

|                   |  |
|-------------------|--|
| Registration page | Landing page labels<br>Login form fields<br>Meeting Room View page<br>Registration form fields       |
| Event window      | Audience Chat tab<br>Event Resources tab<br>Q&A tab<br>Slides tab<br>Video player<br>Welcome message |

# Available languages

You can request templates in the following languages:

- English, American
- Chinese, Simplified
- Chinese, Traditional
- Czech
- Danish
- Dutch
- French
- French, Canadian
- German
- Italian
- Japanese
- Korean

- Polish
- Portuguese, Brazilian
- Romanian
- Spanish
- Turkish
- Vietnamese

## Examples

The following examples show an event created within a folder with a Spanish language template. Notice that the Add to Calendar button, registration fields, buttons, and tabs and other text on the event window are in Spanish.

Keynote Kickoff

Preguntas frecuentes y Prueba del sistema

The screenshot shows a virtual conference interface. On the left, a video feed displays a smiling woman with dark hair wearing a blue polka-dot shirt. Below the video is a question submission area with the text "Haga una pregunta" and a "Enviar" button. A status bar at the bottom of the video feed indicates "En vivo" and "Total de preguntas respondidas: 0". The main stage area on the right has a blue background with a circuit pattern on the left. It features the text "TECHConference Keynote Kickoff" and "hosted by alltrek". A "Diapositivas" tab is visible at the top of the stage area.
