

Conference Controls

Included in the base price of the conference.

The Conference Controls are a web-based console designed to help you manage your conference, view attendees, and take questions. The Conference Controls also provide a private channel for speakers and operators to chat online behind the scenes.

The Conference Controls Guide can be accessed here:

<https://helpgm.webcasts.com/books/getting-started-L3M/page/conference-controls-user-guide>
